dhanush

artificial intelligence

I'm Dhanush, a artificial intellgience Specialist with 6month of experience. I'm a specialist in creating ML model, data cleaning and exploration (matplotlib,seaborn).have a pretty much good knowledge in python and data visualization tool (tableau and power BI).the machine learning deep learning (sklearn,tensorflow). i have the knowledge in this respective domains.

EDUCATION

2021-2022

madras university

- Bachelor Degree of commerce

2021-2022

- artificial intelligence in hope AI intitute

PROJECTS

machine learning projects

- salary prediction
- body fat prediction
- insurance prediction

- i did the project in jupyter notebook with respective machine learning concepts llike regression (sklearn) ex:(svm,decision tree)

data science project

- college placement analysis

- i did the project in jupyter notebook with respective datascience concepts like univarite and bivarite ex:(frequency table,percentile).

SKILLS

machine learning

85%

data science

89%

tableau and power BI
